

# Plant Manager

Kearny Municipal Utilities Authority (KMUA) serves South Kearny and Meadowlands Districts for collection and conveyance of wastewater is seeking a Plant Manager. KMUA's system consists of five pump stations, approximately 9 miles of gravity sewer and 3 miles of force mains. The successful candidate must have at least 5 years' experience in pump station operations and maintenance. The Plant Manager will report directly, and function under the supervision of the Executive Director and will be responsible for the operation, control, process changes, maintenance practices, and recordkeeping at all Authority pump stations. Ability to troubleshoot and identify operational failures, such as pumps, VFDs and related station appliances. Will conduct daily inspections of facilities for identifying potential process issues or hazards. Shall provide reports to the Director as requested. Responsible to maintain compliance with the facility's NJDEP permits and other applicable regulatory permits. Oversees and trains the operational staff, prepares work schedules and equipment maintenance protocols, coverage for emergency call outs and resolves personnel issues and grievances in accordance with established labor practices. Required to be on-call for any emergencies 24 hours per day including weekends. Participation in monthly Authority meetings may be required. Intermediate computer skills are required. A High School diploma and NJ state driver's license is required. College/University course work desired. Must have ability to obtain a NJDEP C-2 license. Salary range is requested. Resumes should be forwarded to [zbalcazar@kmua.org](mailto:zbalcazar@kmua.org) with cc to [gpaster@pasteresq.com](mailto:gpaster@pasteresq.com) at no later than September 23, 2020
